## The DIMMER VIEW

by Max Goodwin

### A Program for Needy Homeowners

Most property owners have received the county tax bills and their anger is apparent.

It took little research to arrive at that conclusion. Just ask any home owner.

Most homeowners feel they're being had by the combination of spending legislators who comprise the county board of supervisors, the assessor who overvalues their property, and the tax collector who establishes the tax rate.

Part of the anger is that of frustration. People just can't get a handle on the responsible group. The assessor claims that his assessments are based solely on recent sales of similar property; the tax collector matches the supervisors' expenditures with assessed valuation and comes up with a tax rate. Supervisors complain that much of the money they spend is by state and federal mandate.

Few will accuse members of these bodies of dishonesty. Misdirection, perhaps, but looting, almost never.

Let's look at what's happened this year.

The county board of supervisors in their annual budget hearings gleefully told owners of 517,000 parcels of land that the property tax rate would be cut by 45.7 cents for each \$100 assessed valuation.

They told the truth. The tax rate went down but the tax bills went up by \$58 million.

As a taxpayer property-owner of limited means, where do you start to prevent your home from going to a tax sale? Whomever you try to blame, the blame is shunted elsewhere.

Supervisors can't control mandated programs. Assessors can't control the current value of property and the tax collector can't control anything.

The most hapless victim of this uncontrollable tax-and-spend program is the family whose only real estate is the home they occupy. The assessor says they can sell their home for \$60,000 for which they paid \$18,500 in 1965—and they could—if they wanted to move.

The huge added assessment makes the tax bill unconscionable. This family, of limited means, is being penalized for all those years of frugality, sweat and tears used to keep the home payments up and to keep the property from becoming a community eyesore.

But the family doesn't want to sell their home. They want to live in it; to finish raising their family and after the kids are gone and the mortgage is paid off, to live out their remaining years in comfort and security.

Even if they were talked into selling their home they would be forced to pay as much or more for another place and if any profit over the purchase for a new home was left, the income tax people would be there to collect.

They know that only the speculator is making money on the housing shortage. Individual home owners who are hard-pressed are not in the real estate business nor do they want to be. But they're paying higher taxes because the speculators are forcing prices up.

Yet, a simple regulation could avert the tax tragedy that has come into the lives of so many distraught tax-paying citizens.

We could legislate the assessments back 7 years so that those owning only one piece of property and who have lived in that property for at least 7 years, would be assessed at the value it had 7 years ago. That would remove uncertainty. The tax bite would become fairly constant because all such properties would go back to 1970 values.

If the home is sold, or the owners die, the property would be assessed at the current value, plus improvements if any were made during the past 7 years.

The county presently has a program that permits indigent seniors to live in their homes and not pay property tax if they are receiving welfare aid. When the residents die, the property is sold and the county recovers its money.

On Sunday, long after this item was written, the governor took a step in that direction. The new bill would allow seniors, 62 or more, whose income is less than \$20,000 a year and who own 20% or more equity in their home, to live in it tax free. The state would pay the county and the county would repay the state after the owners die and the house is sold.

The greatest financial pinch today is on those in their middle years who cannot take a chance in real estate gambling or even a job change.

This program is a lot less wacky than some of the no-end, non-payment programs for which our tax money is now used, and it is also a laudable program of moral rectitude.

## Sen. Mills Wins Right To Add Cent Gas Tax

Legislation by Senate President pro Tempore James R. Mills, D-San Diego, permitting voters to impose a one-cent, local gasoline tax in seven of the state's most populous counties has been signed by Governor Brown.

"This measure (SB 213) will enable areas with transit needs to ask their voters for approval to raise the necessary money to deal with their local problems," said Senator Mills.

"In San Diego a local tax might be used to help to improve the bus system or enlarge a transit line proposed by the Metropolitan Transit Development Board. In Los Angeles I think it will provide a useful resource to match federal funds to make a start on a rapid transit system," he said.

"San Francisco could use it to extend the Southern Pacific

commuter line closer to a downtown BART station.

Funds raised by such a tax could be used for construction and maintenance of mass transit guideways and exclusive bus lanes, on freeways, purchase of rolling stock for those facilities and payment of voter-approved bonds.

Counties where the tax could be imposed are San Diego, Alameda, Los Angeles, San Francisco, Sacramento, San Mateo and Santa Clara. These are counties which have already approved use of some gasoline tax revenue for transit purposes under Proposition 5 (1974).

In San Diego the voting boundaries would be those of the Metropolitan Transit Development Board.

The measure also authorizes voters in cities with a population exceeding 500,000 to impose the tax.

## Dr. Norris Heads S.V. Kiwanians

Dr. Hugh Norris, a Spring Valley veterinarian, was installed as president of the Spring Valley Kiwanis club September 28.

The ceremony followed a buffet banquet at the Singing

Herb Ketell

Hills Country Club. Installed with Norris were Dan Frank, president-elect; Jim Gaetke, vice president; Glenn Munyon, secretary and Pete Horton, treasurer. Munyon is past president of the club and Kiwanis Dist. 31 Lt. Governor.

Installed at board members were Ken Yarub, William Scholtens, Dr. Thomas Webster and Roy Williams. Hold-over board includes Chet Smith, Alex Struthers, and Wayne Decker. Installing officer was Eugene Haden, retiring president.

Herbert Ketell was presented with group's Elmer Lash Award. The award is named for the club's first president and is given for outstanding community service. Judges are previous Lash Award winners.

Ketell was cited for his singlehanded effort to secure a "Spring Valley" sign on State 64 as well as for negotiating a \$300,000 cash Federal grant to build a community center at La Presa Park. Ketell also played a major role in acquiring the park site.

The S.V. Park & Advisory Board has named the soon-to-be-constructed center in honor of Ketell.

## S.V. CoC Moves

The Spring Valley Chamber of Commerce has moved its business office to 10783 Jamaica Blvd., Suite A.

Maurice Peterson, Chamber president, said that the mailing address — P.O. Box 1211, Spring Valley 92077 — will remain the same. The telephone number, 466-5736, is also unchanged. Chamber business hours will continue to be 9:00 a.m.-1 p.m. Formerly the Chamber met on Memory Lane.

**OPEN HOUSE** — Second District Supervisor Lucille Moore will host an open house at her new Spring Valley field office tomorrow from 4 to 6 p.m.

The new office is located at 9628 Campo road, Casa de Oro, is open weekdays 8 a.m. to 5 p.m., and is an addition to the Santee field office at 8160 Joe Crosson drive which opened last January.

## IB Exec Is LG City Manager

Imperial Beach's city manager, Jack R. Shelver, 42, will take over the business of the City of Lemon Grove in mid-November to become Lemon Grove's first city manager. It was announced Monday night at the city's regular council meeting.

As city manager here he will draw approximately \$30,000 a year. He is said to have been paid \$28,500 in I.B.

He describes himself as a "strong fiscal conservative" and carries more than a decade of experience in city management. He was assistant manager of Imperial Beach 5 years; city manager, Del Mar, 5 years, and back to I.B. as city manager where he is completing his 5th year. His first job was as a personnel employee with the City of San Diego.

Another of Shelver's strong points is his ability to ferret out government funds and grants — a matter that has become somewhat of a science in recent years. He has been successful in that field. One of the reasons that he is delaying the start of his job in Lemon Grove is that he is in the final stages of negotiations of a sizeable federal grant for I.B.

"It is a real challenge to begin a job from scratch," he said. "There aren't many new cities being started and I was intrigued by the opportunity that it offers."

"Yes," he said, "I am proud of my accomplishments in Imperial Beach and Del Mar and I expect to be equally effective in Lemon Grove."

Shelver holds a degree in political science at SD State U and does graduate work in public administration.

He came to San Diego from high school in Inderlin, N. Dakota as a Marine and after Korea he established his residence here.

He, and his wife, Sandra, a teacher, and their two children are seeking a 4-bedroom

**FIRST CITY MANAGER** — Jack D. Shelver, 42, who leaves the City of Imperial Beach post of city manager has been selected as city manager of the City of Lemon Grove.

home in Lemon Grove.

There were 48 applicants for the Lemon Grove job. 10 were interviewed during a 10 day period by the city council.

Shelver said he had no preconceived ideas regarding the shape and thrust of his new job. "I'll be guided by the community's needs," he said.

Shelver is a member of the I.B. Rotary club.

At Monday's meeting the council turned to a rezoning (Crane street) over to staff, and approved a multiple dwelling special use permit for 81 units to be built at 8415-8425 Broadway. An ordinance granting a franchise for the SDG&E for the City was given to the city attorney, Dan McLean, for including certain demands over SDG&E's original proposal.

Councilman Dell Lake asked for county staff aid in investigating a proposed methadone center in the 1400 block of Skyline dr. Residents in the area fear that bringing addicts into the community would have a deleterious effect on family life in the center area. A study will be made said Tom Parks, city-county liaison officer.

Leo Bodin was introduced as the new Coordinator of Recreation and Human Services Information Task Force. He will serve without pay and his appointment is for one year. Bodin ran 10th in the incorporation election.

The next council meeting is October 17 at 7:30 p.m. at the L.G. Ed. Center, Kempf and Lincoln sts.

## Transit Choice Voice Given L.G.

The City of Lemon Grove, because of incorporation, will have at least a small voice in who will be its representative on the Metropolitan Transit Development Board (MTDB).

Legislation (SB 866) by Senate President Pro Tem James R. Mills, affecting the membership has been signed by the Governor.

The law creating the MTDB provided for the Cities of El Cajon and La Mesa to jointly appoint one member of their councils to the MTDB. The bill includes the City of Lemon Grove in making that joint appointment.

The measure will also limit the number of successive terms a chairman may serve to no more than two.

SB 866 also deletes the requirement that MTDB give the legislature a year's notice before starting guideway operations or letting a contract for a guideway system.

## CALPIRG Says Local Pharmacy Prices Highest

CALPIRG (California Public Interest Research Group) released its findings and filed 29 formal complaints with the California Board of Pharmacy, last week, charging San Diego drug stores with inadequate price posting and refusal to quote drug prices upon request.

The study included a price survey on 33 prescription drug items at 115 area pharmacies. Prices, it found, were 66% more expensive for a particular drug in one pharmacy than in another.

Prices varied for the entire group of drugstores by 224%. Of the pharmacies visited, Drug Mart was the lowest; Haizlips in Lemon Grove was the highest. Haizlips' was not cited.

The pharmacist-manager of Haizlips admitted that posted prices in the store are high and that the posted prices are those charged to institutional homes.

"We geared our operation to the needs of these homes and they get the highest level of service possible to give."

"We are required to be on call 24 hours a day, 365 days a year."

"If we get a call at 2 a.m. we must fill and deliver the

## Committee for 'Poor' To Decide Fund Use

County residents who are classified as "poor" due to their low incomes are going to have a chance to elect representatives to advise the San Diego County Board of Supervisors about how money for social services should be spent.

The nomination and election of 30 representatives of the poor will be Tuesday at 6:30 p.m. at 25 sites throughout the county.

To make it easier to conduct the election, the county has been divided into five regions. Any adult living within the boundaries of any of the five regions is eligible to vote.

In the East County are 3 sections — Mt. Empire-Alpine area, La Mesa-Lemon Grove, and Santee-Lakeside-El Cajon. Polling locations are Santee, Big Rock Elementary School, 8120 Arlette st.; La Mesa-

Lemon Grove, Presbyterian Church, 4426 Harbison; Alpine-Crest, Fuller Hall, North Marshall road; Lakeside, Open Door, 9906 Maine st.; El Cajon, Salvation Army, 1101 East Main.

Adults living outside the boundaries of the five regions are eligible to vote if the family income is less than the following levels:

| Family Size | Family Income |
|-------------|---------------|
| 1           | \$2,970       |
| 2           | \$3,930       |
| 3           | \$4,890       |
| 4           | \$5,850       |
| 5           | \$6,810       |
| 6           | \$7,770       |

The 30 district representatives elected will choose 6 members from among themselves to represent the regional council on the Community Action Partnership (CAP) Administering Board.

# There's An Answer

By Mr. and Mrs.  
Norman Vincent Peale

**Swearing**  
Q. What is the best way to stop swearing?  
I have a problem when I become angry or flustered. I only swear in private but I still feel very wrong.  
Often I become discouraged because I make a lot of mistakes or try to figure out God.

I just graduated from high school, and I'm looking forward to college, would you pray for me?  
A. The best way to stop swearing is the same way that one stops drinking or smoking or what have you. Just stop doing it.  
Make up your mind that from now on such a habit is out. The chances are you may slip once in awhile. But if with every slip you affirm the positive fact that you are now a non-swearer, your slips will become less and less.

As a suggestion you might wish to call our Prayer Line and talk over this problem with the dedicated and knowledgeable person who will answer our Prayer Line telephone number— (212) 481-1050.  
Of course you will be remembered in our prayers.

**Cruel God.**  
Q. My husband's 15-year-old grandson has muscular dystrophy. He has been for some years confined to a wheelchair.

He barely has enough muscle left with which to feed himself.  
My husband says God is cruel to punish an innocent child in such a manner.  
I know from the way he talks that he is doubtful as to whether there really is a God, who, to his way of thinking is supposed to be all-merciful.

I find myself at a complete loss to come up with anything that will be of help to him.  
There must be untold numbers of people who are also asking themselves, "WHY, WHY, WHY?"  
Can you give us an answer?

A. Certainly God is not punishing an innocent child.

## CLASSES RESUMED

Sunday morning classes on  
**"THE DISCOVERY OF SELF"**,  
a fascinating discourse on self-realization will begin the 1977-78 year, and continue each Sunday morning at 10:30 a.m. at 8369 Mt. Vernon, Lemon Grove, Ca.

**SCIENCE OF MIND STUDY GROUP**  
Dr. Ben F. Sherman, Moderator  
All are invited

Your young grandson is simply the victim of a disease.  
All disease is the opposite of health and well-being and is the result of natural causes.  
God is on the side of good health and is encouraging His children who are scientists to discover the causes and the cure for all human maladies.  
God is Love itself. You might remember also that He had a Son who was put to death and therefore He Himself knew suffering. So He shares our suffering even as He helps us move toward perfect health.

**Paying for Sins?**  
Q. I'm 27, single and have an illegitimate child. We stay with my parents and I work constantly, on my job, home tasks and the yard work.  
I'm so tired, ill and depressed all the time.

I want to marry, but mainly I want to move out on my own. I can't, because after paying expenses I'm unable to save.  
I'm in a terrible circle of money problems and responsibilities that started when my child was born eight years ago.

My parents say I brought my problems on myself. My mother talks about my lack of morals to my daughter and therefore she doesn't respect me.

I want a home of my own so bad, a home where I can relax and express my feelings and views.

Do you think I'm being punished for my sins by not being able to find a home?

A. You are being punished by your own terribly negative attitudes. And you are never likely to get a good, loving husband and a home of your own until you shed that depressing negativism which turns people off.

You must change yourself into an optimistic and attractive personality. And that can be done by simply acting that way.

Turn away from the past. Practice an outgoing, self-forgetting attitude. Live in the present with enthusiasm, and you can make a nice future for yourself.

If there is something you would like to ask Dr. and Mrs. Peale to discuss in this column, write to them in care of Box 500, Pawling, NY 12564.

# Shirley Boone, Singer's Wife, To Speak at Convention Center

Shirley Boone, wife of singer Pat Boone, having seen herself in the role of the "neglected housewife", the "forgotten woman"; cooking, washing, raising kids, serving a husband and being taken for granted — has found liberation.

Mrs. Boone will discuss the subject as the guest speaker at the Youth For Christ Women's Auxiliary 4th Annual Fall Luncheon on October 25 at 11 a.m. in the Mission Ballroom of the Town and Country Convention Center.

A San Diego county woman will be named at the luncheon as the Christian Woman

of the Year. Past recipients of the award from Youth For Christ are June Carter Cash, a non-resident, who received special recognition, Alice McIntire and Lucille McKinnon, who was The Christian Woman of the Year 1976.

Jodie Lavender, Music Director at the First Baptist Church of La Jolla, will be the guest vocalist for the gathering.

The chairman of the luncheon is Mrs. James Lloyd and reservations may be made by calling the Youth For Christ office at 286-4500. The event is open to the public.

# Ministers Who Quit Is Subject of LA Seminar

Three Southern California ministers who have faced crisis in their ministries have put together a "Clergy Seminar for Creative Change" to aid other clergy and religious workers who are looking for new directions within the ministry or in another field.

The Seminar is set for 6 p.m. October 24 through noon October 26 at the Sheraton-Anaheim Hotel and is open to the clergy of all faiths and their families.

"Many ministers or other persons in religious work in America today are finding pressures too great and fulfillment too small," says Dr. William B. Bradshaw, one of the Seminar leaders.

He is the pastor of the First Congregational Church of Los Angeles. He was able to find some answers to his problems.

"My experience taught me that there is really nowhere for the minister or religious worker in crisis to turn for help," he reiterated. "So that is the reason for the Seminar. Any decision affects not only the individual but his or her whole family, because of the special view society holds of

## Seniors' Program

### Needs Green Stamps

Senior citizens participating in the Lemon Grove-Spring Valley Nutrition Project are sponsoring a drive to collect 265 books of Green Stamps to buy a 16 mm film projector. So far, the project has collected only 50 books.

those in religious work."  
Another of the leaders, John Simon, is a clergyman in good standing of the Southern California District of the Lutheran Church.

He made a successful transition from the active ministry to a church-related field.

Condon H. Terry, the third Seminar leader, went into private business and has now returned to the active ministry.

Identifying conflicts, financial considerations, emotional trauma, family relationships, and setting realistic goals are some of the issues to be covered.

Seminar leaders believe they have practical and specific information to aid participants, and they offer examples of people who have found new fulfillment within the ministry or in other fields.

To register call William B. Bradshaw, Ph.D., at (213) 385-1341 or (213) 687-4571.

The one hour color release from World Wide Pictures will be shown once beginning at 6 p.m.

"Pass" has an English soundtrack but was originally produced for showing to Japanese audiences.

It was filmed entirely in Japan with a Japanese cast and crew, and depicts the delicate beauty of that country. The drama of the story unfolds against a backdrop of Japan's spring blossoms, snow-capped mountains, and whispering native music.

A true story, "Pass" is based on the international best seller by Ayako Miura.

Nearly two million readers have been touched by this story of the abiding love of a young couple at the turn of the century.

The meetings have traditionally been for ministers but the meetings have been opened to the public.

The organization has built several elements including an annual bible conference, family counseling, a hospital ministry, a ministry for "street people" called "Operation Nightwatch", a ladies auxiliary, an employment service, and an annual Sunday school convention.

The organization offers two types of membership, one for churches and one for individuals.

For a member church to be afforded voting rights, the church must agree to a seven point Statement of Faith, have either no formal association with or disassociation from the World Council of Churches or the National Council of Churches, and must contribute at least \$10 a month or \$100 a year in advance.

Individuals may become members by adhering to the seven point statement and contribute \$2.50 a month or \$25 a year in advance.

Alicia Alonso, prima ballerina opens S.D. Ballet Season

## Cuban Ballerina is 'Giselle' Star

Legendary Cuban ballerina, Alicia Alonso, will open the San Diego Ballet's 1977-78 season in performances of "Giselle" on November 11 and 12 and one performance of a pas de deux program on November 13 at the Civic Theatre, 3rd and B, San Diego.

Following this initial 3-performance weekend, the San Diego Ballet's acclaimed version of "The Nutcracker" with guest artist Galina Panov will play 6 performances December 15-18.

Concluding the series on March 17 and 18, will be Spring Premier Repertory with guests Susan Lovelle and Paul Russell, stars of the Dance Theatre of Harlem.

Alonso will perform her well-known role, Giselle, for the first time on West Coast since 1958 when she appeared at the Greek Theatre in L.A. Last week, she danced "Giselle" in a special Gala Performance with American Ballet Theatre in New York City. Her next performances are with the San Diego Ballet.

In "Giselle" and the program of pas de deux, Alonso will be partnered by Jorge Es-

quivel, principal dancer of Ballet Nacional de Cuba.

Alonso, former prima ballerina of American Ballet Theatre and Ballet Russe de Monte Carlo, returned to her native Cuba in 1960 to found and direct the Ballet Nacional de Cuba. In recent years, this company of 75 dancers with Miss Alonso as prima ballerina has received acclaim throughout the world.

Galina Panov, a former soloist with Leningrad's Kirov Ballet and a recent immigrant to Israel, will return by popular demand for the second consecutive season to dance in the San Diego Ballet's "Nutcracker."

A spring series will feature 3 new ballets by the professional company and two pas de deux by guest artists, Mr. Russell and Miss Lovelle.

Tickets are on sale at the Center Box Office, 202 C st., and at all Select-A-Seat outlets.

## Matrons-Patrons Pot Luck Held Saturday

Past Matrons and Patrons Association, of San Diego County, Order of the Eastern Star, will meet on Saturday at 6 p.m. for their monthly potluck dinner, at the East San Diego Recreation Hall, 4077 Fairmont ave.

Members are to bring their own table service, and their favorite vegetable, salad or dessert and the association will furnish the meat dish.

The president of the club is general chairman who will be assisted by past matrons and patrons. All birthday members will be honored.

Mr. and Mrs. Magunsson, advisor and president, will preside at the meeting, followed by games or cards.

All past matrons and patrons are invited to attend.

## Think Substitution

If you're in the middle of a recipe and suddenly without an ingredient, think substitution.

For example, whipping cream can be used instead of milk or half and half. Ketchup is a perfect alternative to tomato sauce.

Home economists recommended these substitutions particularly for cooks in small households because they are least likely to have a large food stock available.

## Noble Grands To Meet October 14 For Lunch

The Past Noble Grands Association of District No. 54, of the Rebekah Degree, will hold its regular business meeting and sack luncheon on October 14th at noon at the Colina Del Sol Recreation Center, 5319 Orange ave., with Mrs. Edna Redding and Mrs. Christine Blackall as refreshment chairmen.

## Women's Golf Tourney Offers Women \$100,000

LOS ANGELES — The \$100,000 Sunstar Classic, the first major women's pro golf tournament ever to be held in this city, will be conducted at the Rancho Park Golf Course, it was jointly announced by tournament chairman Yasuyoshi Kaneda and Los Angeles mayor Tom Bradley.

The 72-hole tournament, featuring the greatest women golfers in the world, will be played March 9-12.

In past years, women's pro tournaments — some even called the Los Angeles LPGA Open — had been held in Inglewood and Montebello and others in Buena Park, Pasadena and Calabasas Park but never within the city limits of Los Angeles.

Mayor Bradley said, "Los Angeles, long recognized as the sports capital of the world, will further enhance that reputation by hosting the Sunstar Classic for the first time."

"It's only fitting that the greatest women golfers in the world should compete on the Rancho Park course, one of

the finest and most heavily played municipal facilities in the world."

Rancho Park will offer a stern test of women pros. The venerable Los Angeles Open, one of the class tournaments on the men's pro tour, had been held there from 1956 to 1972.

Kaneda, vice president of Sunstar, Inc., headquartered in Osaka and one of the largest and widely-diversified corporations in the Far East, said his company is not new to big-time golf sponsorship. "Sunstar has promoted the U. S. versus Japan men's pro matches in Japan for the last three years," he said.

"We at Sunstar have always been vitally interested in promoting international goodwill and human relations. We sincerely hope this tournament will prove to be an excellent medium to accomplish both."

Bill Hall, former tournament director of the Ladies PGA Tour, will direct all operations of the Sunstar Classic.

## Outdoors & Travel

By E. L. "Buck" Rogers

I know a Oklahoma feller who owns a fishing camp up in Saskatchewan and doesn't have to lie about his product.

This is kinda unusual.

Most fishing camp operators have something in common with vacuum cleaner salesmen or politicians on the eve of an election. They promise everything, and that sort of commodity is hard to deliver.

Tom Pierce is a mite different, though.

In the years I've known this softspoken man he's never once promised me that I'd come home from Sportsman's Lodge with a record pike. He's hinted that the walleye fishing is pretty good but he never suggested that I'd catch my limit every day I was on the water. He's been a square shooter with me and the rest of his guests for a number of years, and I thought it was about time to say something nice about folks like that.

Tom's lodge is a fly-in operation located on the Churchill River 50 miles north of La Ronge. The camp sits on a peninsula on McIntosh Lake, which is free of mosquitoes, and it about as comfortable as a man could hope for. Meals are hearty and varied throughout the week. His

equipment is first class, and his Indian guides are about as good as you can find in the Canadian northwoods. The end result is an operation geared to fishing and serious fishermen.

All of this is fortunate because the Churchill River lake chain is one of the most productive fishing waters in Canada. Pike grow large in these waters because food fish are plentiful, and there are thousands of acres of weedy coves and bays which serve as an ideal habitat for this species of gamefish.

Walleye, the favorite table fare of Canadian waters are also abundant here. And, when caught in the swift rapids and below the waterfalls that dot this area, they fight harder than usual. Both Walleye and northern pike provide all the action that a man can handle in a day's fishing, but for a change in pace there is also good light-tackle angling for whitefish, big lake trout in the lower depths, and rainbow trout fishing a short hop from camp by float plane.

Tom's place is reached by commercial flights to Minneapolis-St. Paul (Braniff serves this city daily), local carrier to La Ronge, and by float plane on to McIntosh Lake. The price for four days with everything furnished is \$480 per person.

One more thing. Pierce has never promised a man he'll come home with his possession limit of frozen filets, but I've never known one who didn't.

### Housing Starts Drop

LOS ANGELES — Bank of America reported last week its records show a 9.1 percent decrease in the number of housing starts for the month of August as compared to July.

Even so, the Bank reported the 250,000 units started during August was 19 percent more than the 210,000 housing units began in August 1976.

## Standings Tighten In SB Competition

Ken Snelling has now won 13 super stock main events but John Cartwright continues to cling to his South Bay Racing Assn. points lead.

That's the situation as the super and street stock car pilots race into another program Friday night at S.B. Speedway 117's quarter-mile, banked dirt oval. Trials for the supers start at 7 and the first race will get the green flag at 8:30 p.m.

Snelling blew the engine in his Nova in time trials last week but that didn't stop him. He borrowed a Camaro, gained the pole in the 30-lap feature and took the lead on the first lap to hold off the challenging John Cartwright of Spring Valley.

Cartwright, too, had problems last week. He broke a spindle on his Nova and had to hop into a Camaro to chase after Snelling.

Another super stock mainstay is Rick Bogart of Spring Valley who will be sharpening his equipment for the 100-lap open competition race which promoter Don Basile has scheduled for the half-mile oval, October 15. This will be sanctioned by the El Cajon Stock Car Racing Assn. with champion Pat McIntyre and Tucson sensation Bill Cheesbourg heading the entries.

Don Hicks, meanwhile, will be bidding for his 12th street stock feature Friday night with H. D. Jackson of Spring Valley trying to top him.

Street stockers will vie in a 20-lap feature while the super stocks are set for 30 laps. One more regular show is scheduled before the super and street Grand Prix races, October 28.

## Champoux Joins San Diego Sharks

Former San Diego Gull (WHL) goalie Bob Champoux will join the San Diego Sharks of the Pacific Southwest Hockey League for the 1977-78 season.

Champoux, a member of the original Gull team in 1966, also played with the NHL California Seals.

The Sharks open their regular season schedule against Los Angeles Sunday, October 16, at the Mira Mesa House of Ice, at 11001 Black Mountain rd. Face-off is set for 7 p.m.

Tickets are \$3; \$1.50 for children up to 16. Box office is 295-0909.

Champoux will team up with another veteran netminder, ormer San Diego Mariner Russ Gillow. The two veteran goalies have a total of over 20 years experience in professional hockey.

A native of the Province of Quebec, Champoux played part or full seasons with the Gulls between 1966 and 1970 and again in 1972-74. His best full season was in 1967-68 when he compiled a 3.40 goals against average in 33 games.

A fiery competitor, Champoux consistently throughout his career was a key player in playoff action.

## QB Jim Harris On Radio Show

Quarterback James Harris will discuss the weekly fortunes of the San Diego Chargers each Friday and Monday morning throughout the football season on KVEJ radio at 7:55 on the Charlie and Harrison show.

On Friday, the Charger quarterback will tell KCBQ listeners what to expect from the upcoming game.

On Monday, he will diagnose the results.

The KCBQ hotline will be open for one hour before each show so listeners may call in their questions for Harris.

## TAKE FIVE

by John E. Wirges

I'm running out of excuses. At home. At work. Everyplace except my favorite beer-drinking-and-watching-sports-on-TV tavern. I don't need excuses there. All they ask is that you pay all bets and your tab on time.

These baseball playoffs in the daytime are murder. I mean, how many times can you get off work because your mother-in-law is suffering with a serious case of distemper?

How many days off can you parlay with the sad tale of how the early night and late morning fog is making life miserable for your sweet, dear wife, who suffers in damp weather with an old hockey injury?

And even when you do get home, how do you get the old girl to skip "As the World Turns," "The Days of Our Lives," "The Guiding Light," or "The Edge Of Night," in favor of the major league championship baseball playoffs?

As sweet as they are, those ladies who share our home and hearts have no idea how serious all this baseball business really is. Why . . . they think it's all a game. They've got a lot to learn.

When the women of America discover how their husbands back up their selections in a sportin' contest, maybe those ladies will tend to attention to his (and her) interests.

Hardly a ball is thrown, swung at or caught that ain't got a little something riding on it besides the dew of the grass. Baseball ain't a game you bet big. Just often. Like every pitch and every swing.

And if you're in the hole for the season, you gotta press all bets in the playoffs, right? I mean, that's only good business sense.

So, ladies. Stick that in your "Guiding Light" or Edge of Night." And then give a little prayer for real sorrow if the series goes the distance. It'll break our hearts to have to choose between those hot to trot Chargers visiting New Orleans on Sunday and the Dodgers at Philadelphia in the title game of the National League playoffs. You could learn to hate Philadelphia in a hurry if they take the Dodgers into Sunday. Grown men have cried for a lot less.

If the American League series goes the distance, at least they'll be playing next Sunday's game at a decent hour. They come on the TV tube at 5:15 p.m., respectfully after the Chargers have retired from the field (hopefully) with a victory.

Gawd, they played well against the Cincinnati's. Louis Kelcher had six tackles, one assist, two sacks and a recovered fumble. He and Big Hands Johnson put so much pressure on Bengal quarterback Kan Anderson, the guy threw three interceptions.

James Harris teamed up with Charlie Joiner in a pair of picture perfect scoring passes that lit the fire under the Charger offense to generate just under 400 yards in total attacking.

And Harris stood mighty tall in the toughest going, several times firing deadly aerials despite enemy linemen hanging all over him. Under the most severe punishment, he never flinched. He's Tough.

Which makes things doubly difficult if the Dodgers and Phillies carry their disagreement all the way through Sunday.

How can mortal man pick one over the other in such Sunday watching entertainment? The only sane answer is, of course, two television sets. James Harris and the guys ripping through the New Orleans Saints on one, and the Dodgers carrying on with the Philadelphia on the other.

But next week brings World Series action and we're right back in trouble again. All our excuses will have been used up and the Chargers, who will likely be 4-1 at the time will be home against the New England Patriots.

It just isn't fair to crowd all this good sportin' fare in so short a time. It's enough to make you spit against the wind.

And my wife wants the garage cleaned and the screens repaired. Sometimes I get the feeling she really doesn't know where it's at.

## 40 Sprint Cars on Card Saturday at Cajon Track

It will be the only appearance of the season for the powerful sprint cars this Saturday night at Cajon Speedway when the speedy machines compete on the 3/8 mile paved oval.

The powerful CRA racers were to have held two events this year on the Gillespie Field track but a rare season opener rainout in April cancelled the first show. So when the field of 40 cars shows up Saturday it promises to be a whole new ball game for the entrants.

The field will be headed by title-bound Downey driver Jimmy Oskie who has a commanding point lead over runnerup Rick Goudy of Cerritos. Oskie seems assured of his fourth CRA title. He previously won in 1969, 1974, and 1976.

Race time Saturday is 8 p.m. with qualifying set for 6:30.

The seven race card kicks off with a 3-lap trophy dash for the evening's four fastest qualifiers. Four 10-lap heat races will determine 16 of the starters for the main event with the top four in each race moving to the final. The other four of the 20 starters in the 30-lap feature will come out of the 12-lap semi.

### Last Week

Ron Esau made it a big payday at Cajon Speedway Saturday night in the 100-lap open competition super stock race.

The 22 year old Lakeside driver pocketed \$1550 for the evening after setting fast time and then leading wire-to-wire in the marathon feature. Esau also set two new track records for the evening. In qualifying he motored around the 3/8 mile paved oval in 17.51 seconds, knocking a full .10 second of his own track record. And in the finale, Esau lowered his other year old mark.

## Ensenada Golf Course; Pebble Beach South?

BAJAMAR RESORT, ENSENADA, BAJA CALIF.—Tired of playing mundane golf courses like Pebble Beach and Riviera? Looking for something different?

The golfing aficionado will find it at the Bajamar Country Club, a spectacular seacoast layout just 48 miles south of the border.

Veteran touring pro Gene Littler has called Bajamar one of the three most interesting courses he's ever played. And Stan Wood, USC golf coach, has joined other experts in calling it Mexico's Pebble Beach.

It's different, for sure. There isn't a tree on the course, yet it has its own distinctive natural beauty. There are no adjacent parallel holes.

It's a Scottish links-type course without the cold, fog and gale-force winds. The weather, 20 miles north of Ensenada, rivals that of San Diego.

Laid out atop a plateau overlooking the Pacific Ocean, Bajamar was imaginatively designed by architect Percy Clifford, whose credits include the renowned Club of Golf in Mexico City.

### The Beginnings

From back tees, some of the holes are awesome assignments, requiring carries of 150-175 yards just to reach the beginnings of the fairway. Too tough? Explains Clifford: "It's the impression that Bajamar gives you that is the real challenge. If you're accustomed to playing on a continuous green carpet from tee to green, this rugged natural terrain can scare you. But golf is a game of precision and skill, and they will win the day."

"The natural links concept utilizes the original terrain and indigenous flora."

### 'Mexican Gorse' on the Course

And so it does at Bajamar. The narrow fairways are patrolled by untreated rough, rocks, underbrush and cacti, Mexico's version of Scottish gorse, an unyielding and unforgiving vegetation.

Bajamar plays 6950 yards to a par 35-36-71 from championship tees. From regular tees, it's a welcome 900 yards shorter. An acknowledged criterion for a championship course is that every club in the bag should be used during a round. Bajamar qualifies easily. Doglegs, left and right; elevated greens, elevated tees, elevated fairways, blind shots and sloping fairways, left and right, confront the players.

Generous-sized bent greens, immaculately manicured, average about 7500 square-feet. Most slope toward the golfer, thus offering a backstop for holding shots better.

Only one par-4 is less than 400 yards. Three of the par-5s are 593 yards or longer, including one beauty of 625 yards. Although Bajamar's elevation is only about 700 feet, the ball seems to carry especially well, nullifying some of the listed yardage.

### Pebble Beach, South

The five par-3 holes offer magnificent vistas, including the best opportunities for pars and birdies. The longest is 191 yards. The 164-yard 17th is a longer replica of the famous 7th at Pebble Beach.

The course is under the supervision of golf course manager Manuel Mora, who previously was associated with such clubs as Montecito, Las Robles, and El Cid.

Fees are modest. Green fees are only \$6 any day of the week and golf carts are \$8. Bajamar is easily accessible via a modern toll highway. For reservations call (714) 226-1777 or Ensenada, Baja California, (903) 398-2220.

Bajamar is a 1454-acre planned resort community by the Valcas Group, one of Mexico's most respected residential and recreational developers, headed by Al Boeke.

It's the first all-year resort for Mexico and opens a new era of recreational living in

that country. Unlike Puerto Vallarta, Acapulco and Mazatlan with their humid summers, Bajamar always enjoys a balmy climate and the cooling breezes of the Pacific. The golfer can play Bajamar in comfort every day of the year.

### Ocean Front Clubhouse

The clubhouse is an imposing 28,000 square-foot hexagonal-shaped structure of Mexican architecture, situated on a promontory overlooking the ocean. A striking feature is a glass-enclosed observation tower and cocktail lounge.

The clubhouse contains men's and women's lockers, saunas, pro shop, cocktail lounge and a dining room which seats 340. For nongolfers there are lighted tennis courts and a swimming pool.

A luxury hotel, the Posada Bajamar, is under construction on the bluffs overlooking the Pacific. Upon completion late next summer, it will offer the most elegant resort facilities in northern Baja. The first phase includes 120 view-oriented guest rooms, a restaurant, night club, and meeting rooms. An additional 60 rooms are planned for the future.

## Bullfights Move To Mexicali for Winter Season

A spectacular bullfight card has been slated to kick off the 1977-78 season, Sunday in Mexicali's picturesque Plaza Calafia bullring.

Curro Rivera, Mariano Ramos, and Jesus "Chucho" Solorzano will meet a herd of mature fighting bulls from the famed Jesus Cabrera ranch in the three o'clock opener.

Empresario Nicolas Gonzales Rivas has announced a schedule of 12 corridas, to be held approximately every two weeks, from October through March.

"The top Matadors from throughout the world will perform in Plaza Calafia," said Rivas.

"And we have contracted to buy bulls for the finest Mexican ranches. We're looking forward to an exciting, highly successful season."

Mexicali Bullfight Headquarters is Pacific Western Tours, with offices in San Diego. PWT will handle bullfight ticket sales, and will provide conducted bus tours to the Mexicali bullfights.

"Those who have never visited Mexicali are in for a delightful surprise," said PWT President Terry Grant. "It's a beautiful, very clean and modern city, with none of the hustle and bustle normally associated with border cities. There are excellent accommodations and facilities available, and the prices are really bargains," he added.

PWT can be reached at (714) 233-5241 or (213) 461-3595.

# Saints Tighten Halos For Charger Invasion

Five Chargers are returning to familiar surroundings Sunday when they invade the Louisiana Superdome to tangle with the New Orleans Saints.

They are Quarterback James Harris, wide receiver Charlie Joiner, and defensive tackle Gary (Big Hands) Johnson. These three attended Grambling U. in Louisiana. Cornerback Mike Williams went to Louisiana State and defensive end Fred Dean attended Louisiana Tech.

Williams was born in New Orleans and grew up in Covington, 32 miles away. Harris was born and raised 288 miles away in Monroe. Dean was born in Arcadia, 310 miles Joiner in Many, 323 and Johnson in Bossier City, 326 miles.

The Chargers lead the series 1-0 after defeating the Saints 17-14 in San Diego November 18, 1973. The Chargers hold a 3-1 advantage over the Saints in pre-season play.

The Chargers are 2-1 after the most satisfying one in Tommy Prothro's 3-plus seasons as head coach. It was the Chargers' best combined effort of offense and defense since Prothro took over the team for a rebuilding program in 1974.

## 'Best of the Year'

"It was the best offense we had all year," said Prothro. He admitted Tuesday that he was still basking in the glory of the game. "I took a nap af-

ter the game Sunday but I won't sleep much after I study the Saints films."

He may be justified in his worry. The Saints last week scored 42 points, the 4th highest one-game total in the team's 11 years.

But the Chargers could do a little bragging, too.

They outgained Cincinnati 385-219 in total yardage. Quarterback James Harris passed for 200 yards and two touchdowns to wide receiver Charlie Joiner. Harris and Joiner are the "Grambling Connection," having played together at that school for 1965-68 and being reunited in San Diego this year.

The Chargers rushed for 165 yards, giving them 379 yards rushing in the last two games. They have given up a total of 368 yards in the last two games.

Kickoff Sunday is at 11 a.m. Radio KSDO (1130) provides game coverage. Jerry Gross, John DeMott and Scott Gregory will be mikeside. Pat Curran's NFL Weekend starts the day at 8:50 a.m. Bob Chandler and Bruce Walton provide Charger Talk at 9. The Tommy Prothro Show is at 10:35 with the game preview at 10:50. After the game Charger Talk resumes after the Lockerroom Show.

NBC Sports will televise the game on TV 39. Jay and Floyd Little are the announcers.

# Game Sat. in Fresno Makes Gilbert Fret

Leary of an ambush, the S.D. State U. football team travels north to meet Fresno State Saturday in a 7:30 p.m. contest.

Fresno State is 2-2 this season, including a 52-3 drubbing of Cal Poly (SLO) last week in San Luis. S.D. State is 3-0 after blanking Utah State last week 19-0.

"We are aware of the brand of football Fresno State plays," said Aztec head coach Claude Gilbert. "On defense they gamble. They'll mix up their defenses and if you guess wrong and don't block someone, they'll make you pay for it."

"Offensively they are a high risk team with fine team speed and great talent at the skill positions."

"Last year the Bulldogs gave us all we could handle and I expect them to be fired up Saturday."

The Aztecs stopped Fresno State 7-3 last season before 40,768 fans in San Diego State.

## Padres Coaches Stay for 1978

The San Diego Padres have rehired all of the remaining members of their coaching staff for the 1978 campaign. It was announced today by Padres Vice President-General Manager Bob Fontaine.

The Padres, however, still have one coaching position to fill based on the move of third base coach Joe Amalfitano to the Chicago Cubs.

There will be few changes, though, within the coaching ranks. Roger Craig will retain his duties as pitching coach while Whitey Wietelmann will again handle the bullpen duties. First base coach Don Williams, however, is being shifted over to the third base box and the coaching vacancy will be for a new first base coach.

"Additionally, hitting instructor Bob Skinner has been reassigned as he will now be working on special assignments for the club."

According to Fontaine, Skinner will be involved in such areas as working in the club's minor league spring training camp, serving as an advance man for the major league club on occasion, being a roving hitting instructor during the season and during the instructional league period. There could also be possible scouting assignments for Skinner.

No target date has been set for the selection of the new coach.

# Fights Sparked By Three KO's In Five Bouts

"Knockouts galore" would have been an apt title for last week's card at the S.D. Coliseum. 3 KO's on a 5-bout card is about as much action as a fight fan needs on one night.

A heavyweight scrap was surprising in several ways. Robbie Bryant, a white fighter from Oceanside and Elliott Bryant, a black of San Diego, had barely faced off when Robbie's brow was split and the ring doctor stopped the fight. It was ruled no contest. The fighters want to meet again.

A small bit of levity came when the fighters were asked, "With the same name, how can we tell you apart?" Black Bryant said, "By the color of our trunks!"

In the 10-round feature, Ignacio Negro Campos, Tijuana lightweight Champ disposed of Teodoro Pineda of Mexico at 2:02 of the 2nd round. Bert Lee, the pride of Campo, who is a likely prospect for a knockout in any fight, subdued Ronald Turner of L.A. at 1:42 of the final round of a scheduled 4-round middleweight scrap.

Bill 'Spider' Mathis of Logan Heights, a welterweight was deprived of a victory after he ripped Eric Bonilla's eye. Officials called it a draw.

Another surprise, of a sort, was when Irish Spud Murphy, a featherweight scrapper, took a split decision from Miguel Ruiz of National City.

Judge Bobbie Valdez accused Ruiz of a low blow and referee Hayes took a point away from him. It was an exciting fight but Murphy didn't win it on this writer's score card. Judge Fritz Werner had it for Ruiz.

The next fight is on October 21 with Renato Garcia a lightweight of Santiago, Chile fighting Andre Beard of L.A.

# Boody Out For Blood In Camel Pro Event

GARDENA — Ted Boody of Royal Oak, Mich., youngest rider ever to win an AMA national, tries to recover from a string of September bad luck in the Camel Pro Series doubleheader at J. C. Agajanian's Ascot Friday and Saturday nights.

Barely 19, Boody won his first national event at Pontiac, Mich., while still 17 in the summer of 1976. He led the Camel Pro Series when the left Ascot in July and trailed his Harley Davidson teammate, Jay Springsteen of LaPeer, Mich. on September 4 by only one point.

This week, Boody is trying to make up for lost ground to Springsteen. Friday he's in the 25-lap TT, rescheduled from Peoria, Ill., and the 20-lap half-mile Saturday night.

Boody even had to suffer the agony of watching the road race at Riverside last week where Springsteen and veterans Gary Scott of Springfield, Ohio, and Kenny Roberts of Modesto all competed for valuable points in the quest for big shares of the \$75,000 Camel Point Fund.

Wherever Boody winds up among the top four contenders, 1977 will be a big year for the youngster. He won his second and third career nationals in a half-mile at Harrington, Del., and the mile at Indianapolis. He missed qualifying at San Jose, Sept. 25, by a foot, and was one spot away from the main at Louisville the week before, or he might be leading the pack entering the Ascot weekend.

## Texas Death Match On Coliseum Card

Can Wrestling and the World Series co-exist?

Yes, says Danny Millsap, wrestling-boxing promoter at the S.D. Coliseum. "We start an hour later — at 8:30 p.m. — when the ball game is over."

Starting later but with more gimmicks, these pro wrestlers will be involved in such antics as:

A Texas Death Match which is the same as a Mexican Death Match except the grunts are from Texas. That matches Texas Red with K.O. Perez and there will be no rules, no referee, no time limit, no disqualifications, and falls don't count.

Contract vs. Contract. Goliath faces Victor Rivera with the winner getting a 30-day contract from the loser and becomes, in fact, his manager for a month. To assure that their cornermen do not interfere, they — Chavo Guerrero and Black Gorman — will be handcuffed to each other.

Three plus Three plus Three. Three wrestlers will be engaged two at a time. After each fall the winner meets the alternate. The wrestlers are Eddie Mansfield, Mando Guerrero and S.D. Jones. Three plus three?

There are two conventional bouts. Bill Ash meets Chavo Guerrero, assuming the handcuffs key hasn't been lost and can be loosened from Black Gorman who is in the wrap-out bout against Tom Jones.

The Coliseum is at 15th and E sts. in downtown S.D.

## 'Mutiny' Proceeds For Navy Relief

"The Caine Mutiny Court Martial," a play adopted from Herman Wouk's best-selling novel about the forceful relief of a Navy Commanding Officer will be presented by the Lamplighters Community Theatre at the Fine Arts Center, 8053 University ave., La Mesa. Curtain time is 8 p.m. Friday.

The play for which uniforms, props and technical advice have been furnished by the U. S. Navy will also be performed October 8, 15, 16, 21, 22, 28 and 29. Proceeds will benefit Navy Relief.

**WHITE CANE DAYS** — Lemon Grove Mayor James Dorman looks over a proclamation he signed designating tomorrow and Saturday Lions International White Cane Days. Looking on is Lemon Grove Lions Club White Cane Days Chairman Father Ken Johnson. LG Lions will seek donations tomorrow and Saturday at California First Bank and at Food Basket to help promote Lions International program to aid the blind.

## SD Parade Marks Columbus Day

Four black high-spirited horses with gold-painted hooves, under the reins of well-trained Marine equestrians, will lead off the 9th Annual Columbus Day Parade downtown Saturday at 10 a.m.

The Camp Pendleton Mounted Color Guard and the Navy Band will set the pace for a colorful melange of marchers, majorettes, bands, floats, horsemen and clowns as they show off along the parade route on Broadway from Ninth ave. west to Columbia st.

The two-hour event, which also is in observance of the Navy's 202nd birthday, will have as its grand marshal V. Adm. William R. St. George, commander, Naval Surface Force, Naval Amphibious Base. Honorary parade marshal will be Amedeo Cerchi-

one, Consul General of Italy for S-Cal., Arizona and Colorado.

A costumed Christopher Columbus and his "aide" will be portrayed by Harry Florentine and John Radovich, roles they have assumed for the past four years. Federal, state and city government representatives will join area Naval command officers and members of the sponsoring groups, United Italian American Assn. and Central City Association, on the reviewing stand on Broadway at Second ave.

23 school and youth bands will compete for trophies. A sweepstake trophy will be awarded best high school band. Judges are from S. Cal. School Band and Orchestra Assn.

Also they have contributed to earth quake relief funds.

## Ask Your C.H.P.

CHP Capt. C.M. Douglas

Last week's question was an inquiry to CHP's role in the new city of Lemon Grove. Captain Douglas said CHP could be contracted by the city.

If you have a question, no matter how insignificant it may appear to you, ask it. It may save you a citation — or even your life.

Write in care of this newspaper. You don't have to sign the letter and please allow at least three weeks for the reply to appear.

### This week's question:

I would like to know how to get replacement flares after an accident.

### This Week's Answer

Any member of the California Highway Patrol may give flares to any person as replacement for flares used by such persons to warn traffic of an accident or other hazardous condition on a highway.

These will be given provided such person was not required by law to give such warning and was not involved in the accident or creation of the hazardous condition.

## Liquor License Not Given Hometowners

A bill requiring participants in drawings for state liquor licenses to have resided in California 90 days prior to a drawing has been signed by the Governor.

The law will give Californians priority in purchasing licenses. According to State Senator Bob Wilson (D-La Mesa), who introduced the legislation, more than half of store licenses and more than fourth of bar licenses awarded in S.D. County were won by non-residents.

### Gisele is Lecturer

Singer, violinist and comedienne Gisele Mackenzie will give a lecture at 8 p.m., October 13, at the Good Life Institute's facility at 115 Thorn St., S.D. Admission charge is \$3.

## Letters To The Editor

### EPIC Asks Help

Dear Editor,  
On behalf of all of us at EPIC, I would like to thank you for your continued support. Particularly, thank you for your recent letter supporting EPIC and its programs.

As you are probably aware, EPIC was not selected for the recent contract for Social Services in Lemon Grove. The Request for Proposal specifically requested evidence of support from the community. In the El Cajon Californian on Tuesday, September 13, 1977, Dr. Robert S. Caulk, the director of the Department of Human Services, was quoted as saying in regard to the proposed selection process, "This wasn't a popularity contest and it wasn't based on who was in Lemon Grove first. As for the letters of support, my question is, were the people who wrote them experts on the particular proposals? The answer is, of course, no. EPIC's position is that you and the others in the community are the experts on Lemon Grove and ought to be heard."

We have formally appealed the contract, and are awaiting a response from Dr. Caulk. In the interim you can be assured that EPIC will continue to provide the very best services possible.

Again, thank you for your support. If you desire, you may write to Dr. Caulk directly at:

## \$66,000 Is LG's Share of Tax Collections

The City of Lemon Grove has received \$66,099 as its share of highway users, cigarette, and motor vehicle license tax funds State Comptroller Kenneth Cory has reported.

Lemon Grove received \$25,638 from highway users tax, \$5,647 from cigarette tax, and \$34,814 from motor vehicle license fees during September. Cory said the distribution for September represented 30 per cent of the revenue deposited in the Cigarette Tax Fund during the month of September.

The highway tax distribution was overall less than the August apportionment.

Then we must make sure the two medications do not conflict," he said.

more than the posted price, we can reduce it. Our policy is to discount prices 20% to those who walk in off the street because they should not have to pay for the extraordinary service given rest homes," he said.

Other major CALPIRG findings:

—35% of the pharmacies posted prices that were not visible and readable

—13% posted prices different from those charged

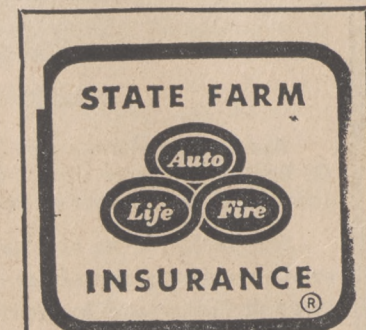

—Of 80% of the pharmacies visited, at least one name brand drug and its generic equivalent had identical prices posted. Generics are cheaper on the wholesale level, and chemically identical to their brand name counterparts, CALPIRG said.

CALPIRG is taking consumer complaints 1:430 p.m. daily at 236-1535.

### Deukmejian Backers Build Organization For Att'y General

More than 450 supporters of the State Senate Minority Leader are organizing the statewide "Friends of George Deukmejian for Attorney General." The goal is to convince the 49 year old Long Beach Republican to seek the office next year.

Deukmejian has gained wide recognition as a legislative leader on behalf of the people in gaining enactment of his death penalty law; also for enactment of his SB-278 which is commonly called the "Use a gun and go to prison" law. Such leadership has established Deukmejian as the "front-runner" among potential candidates for Attorney General.

Veteran campaign manager Bill Roberts of Los Angeles is co-ordinating the organization of the "Friends." Offices have been opened in Los Angeles and San Francisco.

Reacting to his supporters' efforts, Senator Deukmejian said "I am honored. If the necessary factors for a campaign come together in January, I will announce for State Attorney General."

### U.S. Grant Aids Clean Air Program

A new \$450,000 grant for air quality has been received by S.D. County from the U.S. Environmental Protection Agency.

According to Rep. Lionel Van Deerlin (D-Chula Vista), member of the House Commerce Committee which shapes the Clean Air Act, the federal funds will be applied toward a \$2 million program for controlling air pollution, funded in parts from local and state sources.

Activities supported by the grant will include the county's control over hydrocarbon emissions from gasoline, solvents and paints, air quality monitoring and measuring smog sources.

Van Deerlin said that S.D. had only one day this year when oxidants exceeded 20 ppm as opposed to 11 days in 1976. He warned, however, "to let our guard down, since factors beyond our control like the weather can bring about a sudden deterioration of air quality."

### Unemployment Set

The San Diego office of the California Employment Development Department is reporting 34,585 unemployed people claiming benefits.

### Barbour's Book To Be Published

Dr. Richmond Barbour, author of the syndicated San Diego Evening Tribune column "You and Your Problems" for the past 24 years, has signed to do a book with San Diego Publisher Joyce Press Inc. Barbour holds a Ph.D. from Yale and oversaw the guidance program for the San Diego Unified School District for 31 years, first as director and later as assistant superintendent in charge of student services. The book, a 192-page volume scheduled to retail for \$8.95, will be released this fall.

In "Dear Dr. Barbour," nothing will be off limits. Infidelity, sexual problems, public nudity, prostitution, drugs—even psychic phenomena—all will be discussed in a serious, clinical manner in this far-reaching, problem-solving manual.

Joyce Press has published books by columnists John Sidor and Jack Murphy, and has recently signed Max Evans, author of the best-seller "The Rounders," to do a fictional book about the legendary white deer that roamed Mission Hills.

### What You Should Know

## ABOUT YOUR HEALTH

### Cancer Cure: Dismal

No more than ten percent of patients with lung cancer can be cured, even with the most modern medical treatments California Medical Association reports in the "Western Journal of Medicine."

Early detection and surgery "remain both the treatment of choice and the most important factors in prolonging survival," according to Col. D. Reynolds, who heads the cancer treatment program at Travis Air Force Base's David Grant Medical Center.

Still, such surgery cures no more than one of every 10 patients "even in the most favorable circumstances."

He adds postoperative radiation therapy has not proved useful in treating lung cancer.

Calling survival prospects for lung cancer victims "dismal," he and his four fellow researchers conclude that "more effective combined modality management of lung cancer is urgently needed."

The most common cause of lung cancer is cigarette smoking. The lung cancer occurrence rate is five for every 100,000 population among non smokers and 4 per 1,000 for people who smoke two packs a day.

### Malpractice and Children

The high cost of medical "malpractice" insurance is making it harder for a pregnant woman to find a doctor to deliver her child in California.

A survey of California Medical Association members has shown that 41 percent of general and family practitioners no longer provide maternity care services.

Obstetrical care has been discontinued by 21 percent of the obstetrician-gynecologists.

Rural and semi-urban areas were most affected, with 20 and 22 percent respectively, ending obstetrical services. In metropolitan areas, about eight percent of the physicians dropped maternity care.

The survey revealed other changes in practice due to the rising cost of liability coverage. More than 13 percent of all respondents said they were practicing medicine without coverage. This compares with less than two percent in 1974.

Of the general and family practitioners, 38 percent said they no longer perform major surgery.

### UW/CHAD Goal is \$9 Million

A record goal of \$9,217,915 has been set by the 1977 United Way/CHAD Combined Campaign for S.D. County, a 13.1 per cent increase over last year's goals.

The target figure was announced at the latest possible time in order to incorporate a full study of agency needs. According to general chairman Kim Fletcher, achieving any goal that did not reflect the minimum needs of the agencies would not be an achievement to be proud of.

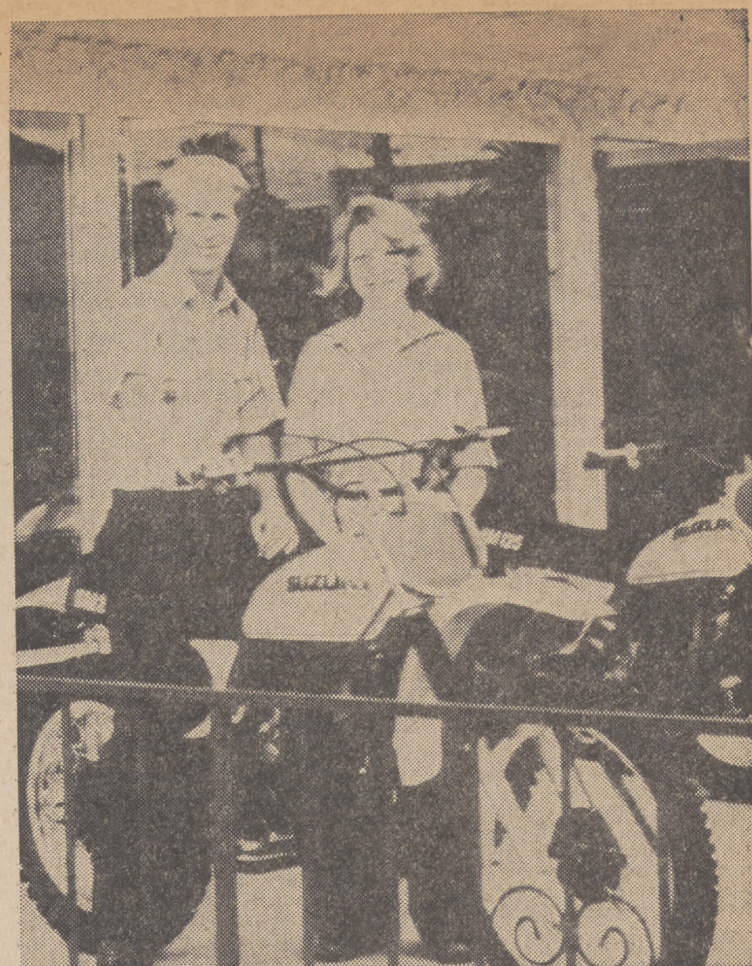

Achievement of the goal would put the S.D. drive in the major leagues of community drives throughout the nation. S.D. is currently listed among drives designated "Metro II" which raise between \$4 and \$9 million.

A plan for greater involvement of business, building up on S.D.'s "Labor-Management" approach has been introduced and is to provide additional support throughout the campaign.

During a number of pre-campaign "Pacesetter" drives increases in both employee giving and corporate contributions have already been reported.

### Hot Showers Back

Hot water showers have returned to campgrounds in three state parks. Showers are available at Big Basin Redwoods and Henry Cowell Redwoods State Parks in Santa Cruz County and at Portola State Park in San Mateo County.

**NEW DEALER** — Mr. and Mrs. William Silverhorn have taken over the ownership of Suzuki of Lemon Grove. The motorcycle shop is located at 7992 Broadway, Lemon Grove.

### Msbugs (or Ladybugs) At Work at Park

Three million black and orange ladybugs came out of hibernation last week at the San Diego Wild Animal Park. The insects began immediately to fulfill their jobs as pest controllers.

Known to man since the Middle Ages also as lady-birds and lady-beetles, ladybugs feast on all sorts of scale insects and their larvae dine on aphids. Since aphids, mealy bugs and other insects are, in turn, feasting on some of the more exotic plants in the Park's valuable horticultural collection, the ladybugs are eating heartily in their new environment.

The ladybugs were obtained from a firm in Los Angeles which sells them for use in pest control. They were stored in 40 one-gallon bags for a few days at the Wild Animal Park in a refrigerator where the temperature was kept in the mid-30's. There the ladybugs hibernated, but with 15 minutes exposure to warm temperatures to days, the ladybugs woke up and flew off to work.
